

2013 GREEN THUMB CLUB ORDER FORM

All 2nd graders attended a presentation from **THE HUDSON GARDEN CLUB** inviting them to join the **GREEN THUMB CLUB**. This program educates and encourages young children to garden. The non-profit venture enables 2nd grade students to purchase seed kits below retail prices. In the spring, your child can plant a garden, watch it grow and care for it over the summer. The **THIRD GRADE HARVEST FAIR** is held at McDowell Elementary in the fall (**tentatively scheduled for September 13th**) and the children display the “fruits or their labor” and receive a ribbon and certificate for their efforts. You do not have to purchase seeds from us to participate in the Harvest Fair. We are providing high quality seeds with a better success rate at a low cost. We hope your child joins their classmates in this FUN educational experience.

(Check out the website www.hudsongardenclub.org under community projects to see pictures of previous Harvest Fairs)

Here is what you need to GET GROWING!

- \$2.00 per kit - 6 seed packets in each kit. (Please no cash, checks only)
